

B2B PARTNER DECK

Oasis Sport Experience

Premium Mediterranean experiences,
operated locally for your clients.

We help agencies, advisors, hotels, villa specialists and MICE teams offer private experiences and concierge services without building their own local operation.

DESIGN

LOCAL OPERATION

B2B PARTNER

Flagship destinations: Costa Brava by the sea and Besalu / Can Terrades inland.

Oasis is the local experience operator for premium partners.

Partners keep the client relationship. Oasis builds and operates the local experience layer behind it.

01

Receive the brief

Client profile, dates, privacy level, preferred rhythm and commercial context.

02

Design the experience

Sport, gastronomy, wine, sea, wellness or retreat formats adapted to the guest.

03

Operate locally

Supplier coordination, concierge services, transfers, local host support and on-the-ground adjustments.

Two worlds: Mediterranean sea and inland retreat.

Costa Brava

- Coastline, golf, boats, wine, gastronomy and hotel-linked private experiences.

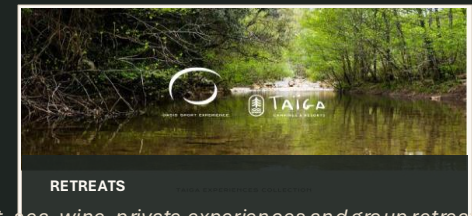

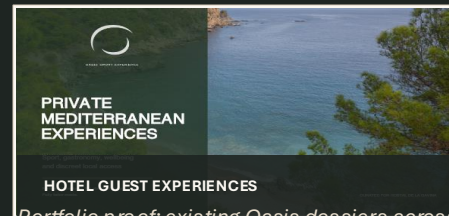

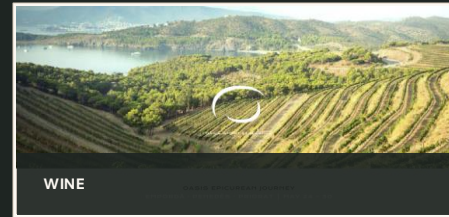

Besalu / Can Terrades

- An inland base for villas, retreats, cycling, local table, wellness and slower Mediterranean rhythm.

A complete portfolio partners can adapt and resell.

Each dossier can become a partner-ready module, a villa concierge service, a hotel guest experience or a corporate retreat component.

SPORT	Golf, tennis, padel, cycling
SEA	Private boats, sailing, fishing
TABLE	Wine, gastronomy, private chef
CONCIERGE	Chauffeurs, chefs, hosts, butlers
WELLBEING	Massage, yoga, trainers, recovery
CORPORATE	Retreats, team building, concierge

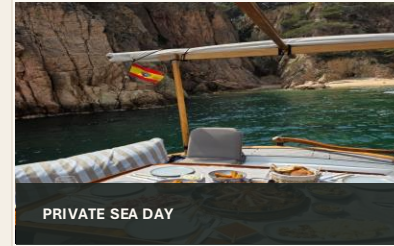

Portfolio proof existing Oasis dossiers across sport, sea, wine, private experiences and group retreats.

Clear products partners can sell, adapt or request.

Golf & wine escape

Championship golf, Mediterranean lunch, wine moments and smooth logistics.

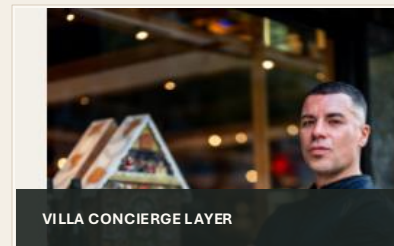

Private sea day

Selected boats, coastal routes, onboard dining and flexible half/full-day formats.

Cycling & active travel

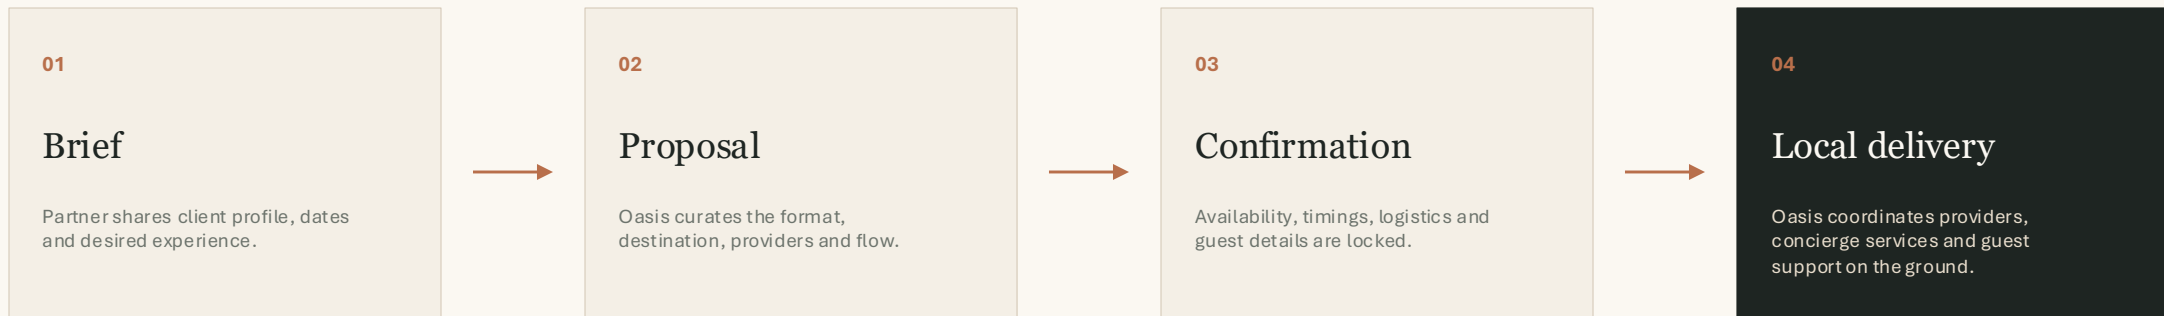

Guided road, gravel and coastal routes with support, stops and local hosting.

Villa concierge layer

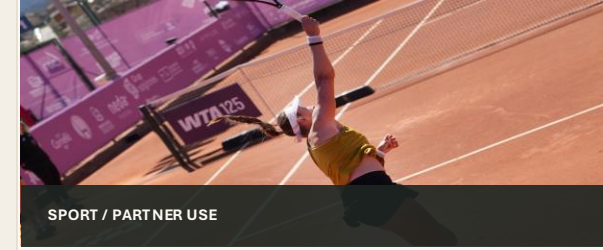

Chauffeurs, chefs, hosts, butlers, massage, trainers, yoga teachers and local reservations.

A simple operating model for high-expectation clients.

The partner remains client-facing. Oasis remains the discreet destination operator.

The same platform serves four partner needs.

Luxury travel advisors

Private modules that can be added to a bespoke itinerary.

Hotels & concierges

Guest-ready experiences operated by a trusted local partner.

Villa & real estate firms

Concierge layer for luxury stays: chauffeurs, chefs, hosts, butlers, massage, trainers and yoga.

Corporate MICE

Retreats and team moments with sport, nature, table and local identity.

The result: partners can offer more destination depth without hiring local teams, vetting suppliers or managing every operational detail.

Start with one pilot experience for one partner channel.

The most useful next step is not a broad catalogue. It is a focused pilot: one channel, one guest profile, one destination and one experience format.

- Choose the partner channel
- Select Costa Brava or Besalu / Can Terrades
- Shape one premium, partner-ready experience
- Operate, learn and refine before scaling
